The calendar application provides bold colors, simple controls, and great functionality. It is not as heavy an application as many others; it will not eat all the memory of your device. If you're not looking for something complicated and overfunctional, Today calendar is what you need. You can always test the application before you pay for it – the program is free Download calendar here today.10. Time pageSYTimepage is intuitive calendar program that will manage your time in a way that other calendar apps cannot. It offers the same kind of features you expect from other calendar apps: opportunities to record events, notifications and memories, weather and drive duration after a particular event. However, the app goes beyond these functionalities in two ways. The first way is that while the app sends you notifications, it also has memories for you for what comes next. That little extra time can allow you to prepare and make adjustments to your day if necessary. The second feature – which is more important – is the heat map when you're going to see the full view of your calendar. This heat map indicates which days you are the busiest and other days where you are freer. This heat map provides a quick look to determine which days are good for adding more events and other tasks. Download Time sheet here. Our VerdictSearching for the right application to manage your different calendars and plan your busy day can sometimes turn into a streak of obstacles. Most of us need flexible apps that can be easily used to manage our difficult schedule. The application must have all the necessary time planning functions and be intuitive. Stylish design and unlimited compatibility also matter. It's not always easy to find such a program. The above digital calendar solutions fall below the category value of use. They are modern, multifunctional, easy and easy. Choose the one you want! More Productivity Apps for Better Time ManagementFeatured photo credit: Unsplash via unsplash.com unsplash.com
